

Little Peoples Place

My granddaughter Aubrey has attended Little Peoples Place since she was five months old. On days when I dropped her off, I could see how comfortable she was, so I was able to leave with peace of mind my granddaughter was in good hands.

My granddaughter is 3 years old and she is moving on to a new school this September. I watched her gain independence under the care of Theresa McNeil Owner and Director of Little Peoples Place.

Along with her peers, the premium on educating young children is evident by early identification of letter, numbers, and vocabulary development. It is clear Little Peoples Place provided a strong platform for her to continue her education.

I was impressed and grateful, to also receive calls from Theresa updating me on Aubrey's accomplishments, something usually her parents would be informed of. This showed the importance of collaborative working relationship with every member of Aubrey's support system.

I am so ever grateful to Theresa McNeil for giving Aubrey a safe, clean and comforting environment she loved and enjoyed going to.

Sincerely,

Ms. Theresa Duncan
Grandmother to Aubrey P.
