New York, New York

To All Staff:

We are greatly appreciative of the great job you are doing caring for our son Myles Burress at your facility. You have so many wonderful elements within' your program and that attributes to Myles's pleasantness. Your facility is arranged in such a way that you can't help but feel your child is protected. Our gratitude is extensive and we can't express enough the comfort we feel knowing he is cared for by your staff.

Although Myles has only been there for two months, it is obvious that your staff is professional and courteous. You have great activities and you plan greater activities. Your curriculum is superb. You are extremely informative with every aspect of Myles' day. Your programs are educational and fun which is what helps prepare them for school. When we pick our child up it appears every child seems to come out with this decorum.

Don't change and if you do – we know - it will only be for the benefit of making your program better.

Sincerely,

Monica and Duane Burress
Parents of Myles Bures
