

To Whom It May Concern:

My name is Deborah Corley and I have a daughter, Serenity Smoot who attends Little People's Place, Inc., over a year now.

I am very pleased with the learning that my daughter receives there. The teachers, staff, & the director, Ms. McNeil are very good people. They work along with you no matter what the situation may be.

They help all parents to get involved in their children's learning. They keep you up to date everyday on their process. Also you get a progress report every day. I see lots of improvement in Serenity's learning.

They let you know what steps you need to take in helping your child as they build. You feel more of a family than a daycare; all of us parents get along with each other.

They help parents who work to deal with separation from their child when they have to work, especially if you and your child never leave each other's side. And that's the same for the child.

I am very pleased with Little People's Place, Inc. I forgot to mention my son Wayne was there as well and got all the help he need to help him learn, such as his speech, they had someone come in twice a week to help him with his speech. Now he's in P.S. 153 and doing well. It started with LPP.
