To whom it may concern:

Little People's Place Inc. has asked us to write a testimonial regarding our child Tomme's daycare experience, and we are delighted to oblige.

During the two and a half years our child attended Little People's Place, we always felt that she was genuinely loved and cared for. The daycare/classroom community was safe, predictable and a nurturing environment in which our child felt valued and included. In this environment, our child thrived in areas unimaginable: at the precocious age of two, she learned to resolve conflicts with her peers via verbal means and hugging, she learned to count in both English and Spanish, to write legibly, to exercise common courtesy, and she understood the need to do homework assignments and to do them in a timely fashion. What we found so impressive about Little People's Place Inc., is that our child had a sense of self; she was taught to believe in herself, that she was a valuable and blessed human being, capable of being anything she strived and dreamed to be in this world.

We believe Little People's Place Inc. is dedicated to the needs of the children in their care and the community at large. The love, care and understanding they provide is what children need to fulfill their highest potential.

Sincerely,

Thomas and Lolita Garvin
