

RE: LITTLE PEOPLE'S PLACE INC.

To Whom It May Concern:

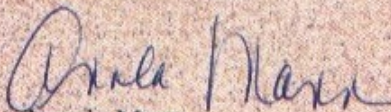

My son Donell has been attending Little People's Place for two months. Although it's been a short time since he's attended the day care, I have noticed a great change in him. He is learning how to share and communicate with others. These are very important attributes to have and I'm very happy that he's beginning to understand the importance of sharing and being kind to others.

It's very difficult for working parents to choose a safe and friendly environment for their child(ren), I must say that I have chosen the right place for my son. The staff has been exceptional with the day-to-day handling of activities and knows the importance of stimulation that toddlers need during their growth process.

As you can see, I travel from the Bronx daily to bring my child to this daycare, as I want nothing but the best for my child.

We are very fortunate to have Little People's Place in our community for our children and I wish them great success with their endeavors.

Cordially,

Angela Mann
Parent
