Dear Ms. McNeil:

I wanted to thank Little People's Place for giving my daughter her start in life. Ella is an only child, and I recall her shyness when she first entered your daycare.

Within days, Ella was talking about her new friends, her teachers and Tita, the principal. That's you, by the way.

We will always look back on Little People's Place with fondness. It's where she learned how to socialize, where she had her first birthday party and where she received the foundation for learning.

I wish Little People's Place success. The daycare is a great part of our Harlem community.

Sincerely,

Nikita Stewart
